

UPDATE ON EZPM 2018  
from the scientific committee  
(Marina Mione, Filippo Del  
Bene, Eirini Trompouki, Isaac  
Bianco and Patrick Blader).

20 December 2017

Dear Zebrafish PIs,

Here are some news on the EZPM-2018 meeting, to be held in Trento, 20-23 March 2018.

- We have extended the early bird registration till 10 January 2018. Our administration could not process the registration requests during the Christmas holidays, so we decided to give more chances to everybody to register at a lower rate. After 10 January, registration fees will increase of 100 euros for both EuFishBiomed members and non-members, so hurry up.

- Tecniplast is offering an interesting package to EZPM-2018 registrants, which includes travel to and from Malpensa airport to Trento and a visit to their headquarters. Please check our web site (<http://events.unitn.it/en/ezpm2018/travel-and-accommodation>) and Tecniplast web site (<http://www.aquaticsolutions.it/our-news/56-5th-european-zebrafish-pi-meeting-tecniplast.html>).

- Suggestions for specific workshops are gathering consensus, don't forget to check the new workshop list, which is constantly updated. The actual program will be drawn from the abstracts submitted by the community.

- Don't forget to register (by January 10) and to send in your abstract by January 15. We are looking forward to welcome you in Trento!

All the best wishes for a peaceful Holiday break,

Marina
